CLIENT GUIDE

how to find your PriceLabs listing ID

A quick, visual guide for sending RevFactor the correct property identifiers.

WHAT YOU WILL SEND

Your listing name and the PriceLabs channel/listing ID shown with it.

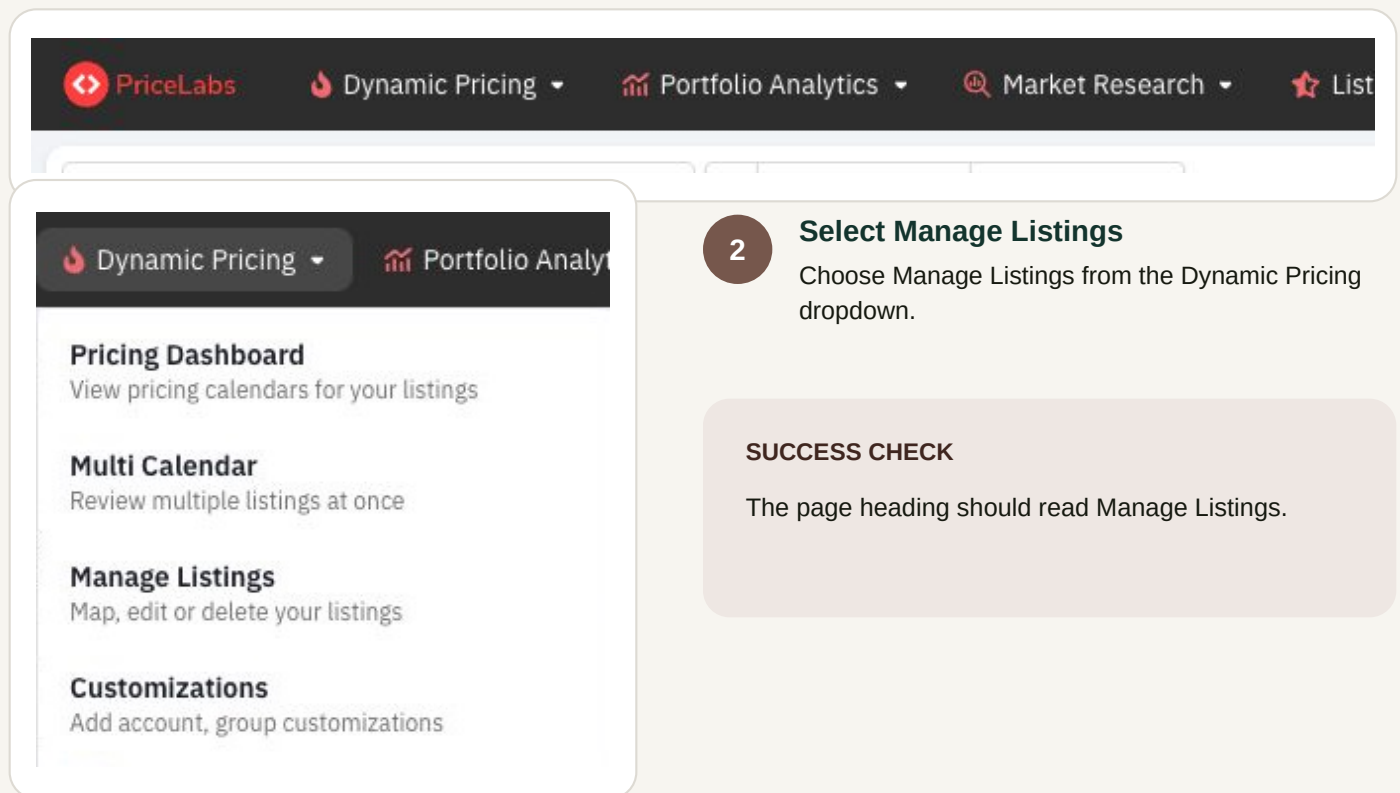

I. Open Manage Listings

After signing in to PriceLabs, use the top navigation to reach the page where listing IDs are displayed.

1

Open Dynamic Pricing

Select Dynamic Pricing in the top navigation.

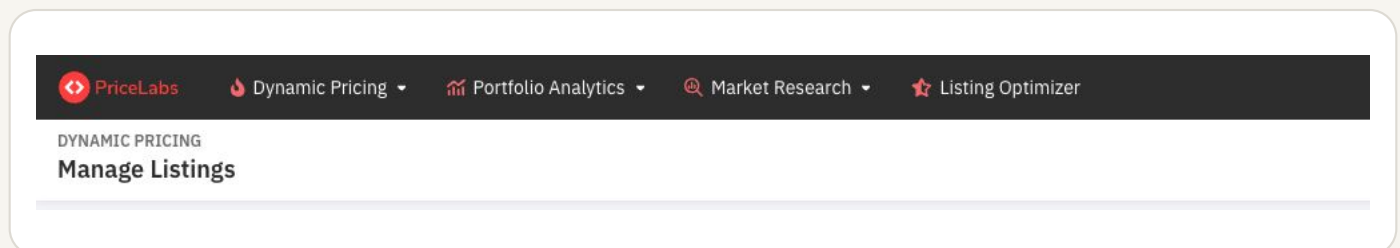

The screenshot shows the PriceLabs top navigation bar with the following items: PriceLabs, Dynamic Pricing (selected), Portfolio Analytics, Market Research, and Listing Optimizer. The 'Dynamic Pricing' dropdown menu is open, displaying the following options:

- Pricing Dashboard**
View pricing calendars for your listings
- Multi Calendar**
Review multiple listings at once
- Manage Listings**
Map, edit or delete your listings
- Customizations**
Add account, group customizations

2 Select Manage Listings
Choose Manage Listings from the Dynamic Pricing dropdown.

SUCCESS CHECK
The page heading should read Manage Listings.

The screenshot shows the PriceLabs top navigation bar with the following items: PriceLabs, Dynamic Pricing (selected), Portfolio Analytics, Market Research, and Listing Optimizer. Below the navigation bar, the page heading is 'DYNAMIC PRICING Manage Listings'.

2. Locate your listing

A listing can appear under Unmapped Listings or Mapped Listings. Search both before assuming it is missing.

1

Search Unmapped Listings

Enter the property name in the search box and look for the correct listing.

2

Then search Mapped Listings

If the property does not appear, select Mapped Listings and search for the same name again.

First, locate the tab that contains your listing

Unmapped Listings

Mapped Listings

Combined Listings

1

Search Unmapped Listings

Check this tab first.

2

Then search Mapped Listings

Use this tab if the listing was mapped previously.

Search for the same property name in both tabs until you find it.

PREVIOUSLY MAPPED LISTINGS

If you mapped the listing previously, its ID will be under Mapped Listings. Airbnb and Vrbo pairs may appear as PARENT and CHILD rows.

Send the channel/listing ID from the first line of every relevant row.

3A. If you use a PMS

Search for the property name. PriceLabs shows the channel and ID on the first line and the listing name on the second line.

☐	Listing Name	Action
☐	Hospitable 98b5...0558	
☐	Ashwood Grand Prairie Fede (CST)	

2 Listing ID
The first line: channel + ID

1 Listing Name
The second line

READ THE LISTING NAME BOX

- 1

Listing name
The second line identifies the property.
- 2

Listing ID
The first line shows the channel followed by its ID.

SEND TO REVFACTOR

The listing name plus the channel/listing ID shown on the first line.

3B. If you do not use a PMS

When Airbnb and Vrbo connect directly to PriceLabs, the same property may appear as two channel-specific listings.

No PMS? Send both listing IDs to RevFactor

☐	Listing Name	Action
☐	Airbnb 5948...7082 Elm Rd GA Angela · Elegant Cabin w/Hot tub, Pool Table Close to Helen	
☐	Vrbo uni...01ee Cabin Bear Meister · (2117162)	

1 Airbnb Listing ID
First line of the Airbnb listing

2 Vrbo Listing ID
First line of the Vrbo listing

Include both IDs when sending your property details.

SEND BOTH LISTING IDs

Find the Airbnb ID on the first line of the Airbnb row and the Vrbo ID on the first line of the Vrbo row. The second lines help confirm that you selected the correct property.

FINAL CHECKLIST

- Listing name
- Airbnb channel/listing ID
- Vrbo channel/listing ID, when applicable
